

AutoVet Veterinary Clinic Management System

User Acceptance Testing (UAT) Survey
Respondent group: **Clients (Pet Owners)**
Pet Wellness Animal Clinic

Purpose and instructions

This survey asks about the AutoVet client portal of Pet Wellness Animal Clinic, which you use to book appointments, view your pet's records and see your invoices. Your answers help us find what is confusing or slow before the system is used more widely. You do not need any technical knowledge to answer.

For every statement in Section 2, put a tick in the one box that matches your experience of the system. Please answer from what you actually observed while using AutoVet, not from what you expect it should do. There are no right or wrong answers, and your responses stay confidential and are reported only as group totals.

SECTION 2 | System evaluation

Tick one box per statement using the scale above.

A. Effectiveness - accuracy, completeness and integrity

Whether the portal shows and saves correct information, keeps your details private, and is available when you need it.

Statement		1	2	3	4
1.	My pet's details in the portal - name, breed, age and weight - are correct.				
2.	An appointment I book is recorded for the correct pet, on the date and time I chose.				
3.	The appointment status I see in the portal - pending, approved, declined or completed - matches what the clinic tells me.				
4.	My pet's visit history and records shown in the portal are accurate.				
5.	The invoices I view show the correct services and the correct amounts.				
6.	Reminders and notifications I receive are correct and are meant for me.				

	Statement	1	2	3	4
7.	I can see only my own pets' information, and never another client's.				
8.	The portal keeps me signed in securely and signs me out when I ask it to.				
9.	When the portal is closed for maintenance, the countdown it shows matches how long it is actually unavailable.				
10.	The portal is available whenever I need to use it.				

B. Efficiency - resources and time

Whether booking and viewing your records is quick, with few steps.

	Statement	1	2	3	4
11.	Creating my account and signing in for the first time was straightforward.				
12.	Booking an appointment takes only a few steps.				
13.	I can find my pet's records without searching for long.				
14.	Viewing my invoices takes little effort.				
15.	The portal loads quickly on my device and connection.				
16.	Booking through the portal is faster than calling or visiting the clinic.				
17.	Changing or cancelling a booking is easy to do.				
18.	Reminders reach me early enough to be useful before the appointment.				

C. Satisfaction - user response and trust

Whether the portal is clear and pleasant to use, and whether you trust it with your information.

	Statement	1	2	3	4
19.	The portal looks clear and is easy to read.				
20.	The words used are easy to understand and not too technical.				
21.	I am told clearly when my booking has been received.				
22.	I am confident that my personal details and my pet's records are kept private.				
23.	I trust the appointment details shown in the portal.				
24.	When maintenance was announced, I was given enough warning before the portal went offline.				
25.	Using the portal is more convenient than how I booked before.				
26.	I would recommend the portal to other pet owners.				
27.	Overall, I am satisfied with the client portal.				

SECTION 3 | Open-ended feedback

Please answer in your own words. Specific examples help us more than general comments - naming the screen, the record or the step where something happened lets us reproduce and fix it.

1. What do you like most about the client portal?

2. What problems did you encounter while using it?

3. What improvements would you suggest?

FOR RESEARCHER USE ONLY | Tabulation

Results for this respondent group are tabulated separately from the other groups. Compute the weighted mean per category, then the overall mean, and read each against the interpretation ranges.

Category	Items	Total	Weighted mean	Interpretation
Effectiveness				
Efficiency				
Satisfaction				
Overall				

Range	Verbal interpretation
3.26 - 4.00	Strongly Agree
2.51 - 3.25	Agree
